

LOGNOTE -- Chief, Operations Group, 18 February 1983

1. [ ] called to report that the Spring SODC course, for which he had been scheduled, has been cancelled. He said he thought C/PAS would be notifying D/FBIS, but he wanted us to know that his job in OCPAS had been disestablished in a January reorganization and that he was now pretty much surplus there. This was confirmed by his supervisor. [ ] said he feels pretty much at loose ends and would like to return to FBIS as soon as possible. He is willing to do anything that would be useful. I said we had his recent letter and had been planning to talk about it, and assignments for the other rotatees, early next month, but I would call his situation to D/FBIS' attention.
